YOUNG  LIVING  
ESSENTIAL OILS

# Therapeutic Grade:

## THE YOUNG LIVING STANDARD

There is a significant difference between essential oils that simply smell good and those that are Young Living Therapeutic Grade™ (YLTG).

Independent laboratory testing proves that YLTG essential oils meet and often exceed industry requirements, and as stewards of nature's plant remedies, Young Living maintains higher internal standards, built upon the magnitude of our own rigorous quality assurance requirements. This standard is known as Young Living Therapeutic Grade. In order to achieve YLTG classification, each essential oil must achieve the designation naturally, without excess manipulation and refinement, and meet specific criteria in four key areas: Plants, Preparation, Purity, and Potency.

**PLANTS** Young Living products are produced from the right plants, grown in exceptional soil, and harvested at exactly the right time.

**PREPARATION** Honoring a strict commitment to respect and protect the time-honored methods of distillation, Young Living makes every effort to preserve “nature’s living energy” in a manner as close to its natural state as possible. Using pure mountain water free of additives, Young Living has a proprietary, stainless steel distillation process that uses low temperature and low pressure to better preserve plant properties, capture the pure essence of the plant, and preserve the quality of the oils.

**PURITY** Achieved through the use of quality plants and meticulous preparation, and not through ultra-refinement, our finished product is 100% pure. Young Living essential oils are unadulterated, uncut, and free of chemicals, pesticides, and heavy metals.

**POTENCY** To guarantee our products exceed existing world standards and meet our own higher internal standards for potency, we analyze the finished oil's phytochemical profile to ensure it delivers optimal amounts of every key plant compound.

# History of Thieves

Young Living's Thieves essential oil blend was created based on the historical account of four thieves in France who protected themselves from the Black Plague with cloves, rosemary, and other aromatics while robbing victims of the killer disease. When captured, they were offered a lighter sentence in exchange for their secret recipe. Young Living's proprietary Thieves oil blend includes clove, cinnamon bark, rosemary, lemon, and *Eucalyptus radiata* and has been specially blended to offer the same kind of defense. Thieves has been university tested and found to be highly effective against airborne bacteria.<sup>1</sup>

Utilizing the power and protection of Thieves essential oil blend, Young Living created an extensive line of plant-based household products. From toothpaste and mouthwash to cleaning products, hand soaps, and even throat lozenges, the Thieves product line provides safe, effective alternatives for use in the home.

# Thieves Essential Oil Blend

The oil blend that comprises Thieves is known for enhancing complete health and total well-being. Each of the oils selected makes Thieves one of Young Living's most effective and favorite products.

**CLOVE** oil, nature's richest source of eugenol, is the highest-scoring single ingredient tested for its antioxidant capacity on the ORAC scale. Clove is also known for its immune-enhancing properties.\*

With 68 percent d-limonene, **LEMON** oil is a powerful antioxidant known for its ability to act as a natural solvent and cleanser.

High in antioxidants, **CINNAMON BARK** has a reputation for relieving discomfort during the winter season and supporting the digestive system.\*

As one of the most versatile of the eucalyptus oils, **EUCALYPTUS RADIATA** has many health-promoting properties. This powerful essential oil contains eucalyptol as one of its major elements, which in laboratory tests has been reported as being effective against bacteria in topical applications.<sup>2</sup>

**ROSEMARY** oil is naturally energizing and may be beneficial for helping restore mental alertness when experiencing fatigue.

# Diffusing

Thieves essential oil blend with Young Living's patented diffusing system creates a safe and simple means of filling your home with therapeutic benefits. Many forms of bacteria and mold spores linked to common ailments can travel through the air. Diffusing Thieves adds an extra layer of protection by purifying the air while adding an uplifting scent to your home.

## Internal Use Tips

Try these simple suggestions to incorporate Thieves in the body for extra protection.

- + Add 2–3 drops of Thieves into a capsule and take daily.
- + Add 1–2 drops into a spoonful of Young Living's Blue Agave.
- + Put 1–2 drops onto a piece of bread.
- + Add 1–2 drops to a glass of rice or almond milk.
- + Drop 1–2 drops directly onto your tongue.

## THIEVES FOAMING HAND SOAP

Cleanse, defend, and condition the skin with Young Living's Foaming Hand Soap, featuring the therapeutic-grade essential oil blend Thieves, pure lemon and orange essential oils, Ginkgo biloba, and vitamin E. Many soaps on the market rely on the synthetic ingredient triclosan to defend against harmful bacteria. The CTFA/INCI certified ingredients in Thieves Foaming Hand Soap are a great alternative to chemical-based soaps, and are gentle enough to be used regularly without drying or stripping the skin.

## IN THE KITCHEN

The Center for Disease Control reports that 76 million cases of food poisoning occur in the United States each year, resulting in one in four Americans contracting foodborne illnesses. Taking the proper precautions when preparing food can help to prevent foodborne illness. Because many of the essential oils in the Thieves blend have the natural ability to protect against bacteria, the kitchen is the perfect place to take advantage of Thieves soaps, spray, and wipes.

## THIEVES WATERLESS HAND PURIFIER

As a plant-based hand cleanser, Thieves Waterless Hand Purifier promotes good hygiene utilizing pure, therapeutic-grade essential oils. Featuring the popular Thieves blend, Young Living's hand purifier is safe and effective for staving off harmful germs and bacteria.

## THIEVES WIPES • SPRAY

Bacteria can be easily spread from person to person by way of the surfaces in your home. By keeping these surfaces clean, you are protecting your family from bacteria and illness. Young Living's Thieves Spray and Thieves Wipes are easy to use and convenient products to help clean and protect every surface in your home, including countertops, appliances, fixtures, chairs, railings, doorknobs, sinks, toilets, and a variety of other household items.

## IN THE BATHROOM

Bacteria tends to accumulate in the bathroom. Washing your hands with Thieves soaps and cleaning countertops, toilets, and other surfaces with Thieves products can minimize the spread of bacteria from the bathroom to other areas of your home.

# Thieves Household Cleaner

Experience the wonder of Thieves Household Cleaner, as tough stains and problem areas in your home become simple and easy to maintain without using harsh or abrasive chemicals. While some bacteria can be dangerous, most industrial cleaners on the market pose an even larger threat to your health with their destructive side effects. Thieves Household Cleaner is a non-toxic, all-purpose concentrate that can be used in every room in your home without the harsh chemicals. Dilute in a spray bottle or bucket, or use straight for extra strength.
