

Thieves

Waterless Hand Purifier

Product Summary

An all-natural hand cleanser designed to clean and refresh the hands, Thieves Waterless Hand Purifier promotes good hygiene without the use of water.

Product Story

In today's busy society, more and more time is spent outside the home where germs and bacteria exist on almost every surface. This makes proper hygiene difficult while on the go. While there are a number of portable hand cleaners on the market, most contain antibiotic and synthetic ingredients that kill bacteria. The simplistic nature of synthetic ingredients causes bacteria to develop a resistance and often produces offspring that are completely resistant to antibiotic treatment. The answer to this resistance lies within essential oils. The unique properties of essential oils, particularly those contained in Thieves, have proven to have tremendous effects against airborne bacteria without creating resistance. Thieves essential oil has been combined with a unique blend of all-natural ingredients to create a safe and effective waterless hand purifier.

Primary Benefits

- + Due to the "leave-on" nature of this product, when the ethanol evaporates, Thieves essential oil blend remains on the skin to continually purify long after application.
- + This product contains active skin-moisturizing ingredients, including natural aloe vera and vegetable glycerin to moisturize and condition the hands.

Who Should Use This Product?

Thieves Waterless Hand Purifier can be used by children and adults to keep hands clean anytime, anywhere.

Did You Know?

Peppermint essential oil is used to denature the ethanol in this product, rather than commonly used synthetic chemicals.

Key Ingredients

Clove, *Eucalyptus radiata*, cinnamon, rosemary, lemon, and peppermint essential oils.

How to Use

Use as often as necessary. Apply a nickel-sized amount to the palm of the hand and rub until completely absorbed.

Caution

Flammable. Keep away from fire or open flame. Keep out of reach of children. Do not use on or near the face. If contact occurs, flush eyes liberally with clean, cool water for several minutes. If symptoms persist, contact your physician. Not for internal use.

Complementary Oils

Thieves Essential Oil Blend

Diffuse Thieves essential oil blend in the home to keep the air clean and free of toxins. For centuries, the oils in Thieves have been used to ward off illness. In modern times, these oils have been the subject of antibacterial and antifungal research.
